### **Coronavirus Information Update as at: 31 January 2020**

To our Papamoa College Community

Previous information and advice provided (Coronavirus information date 28 January 2020) is still relevant with the following updates.

The novel coronavirus situation is continuing to evolve rapidly.

The Ministry of Health website is still the best place to obtain accurate information regarding the coronavirus and has updated their health advice with a more narrowed focus on which geographic areas within China are deemed at the most risk for exposure to the infection – these are Wuhan and Hubei province.

Novel coronavirus (2019-nCoV) guidance – Ministry of Health

Based on the latest advice from the Ministry of Health, *if any staff member or student who has recently been to Wuhan or Hubei province, or has been in close contact with someone confirmed with the virus, schools should encourage the staff member or parent/caregiver of the student to delay the start of their school year for 14 days and stay home.*

The school continues to be in close communication with the Ministry of Education with regards to any implications for our school.

Please contact us if you have any questions or queries.

Regards

Steve Lindsey
